MINOT-SLEEPER LIBRARY—REPORT OF TRUSTEES

The trustees of Minot-Sleeper Library have nothing unusual to report in the way of library activities for the past year.

Miss Mary Rogers has again filled the position of librarian in the same efficient and courteous manner with which she has served the reading public of this community for the past ten years.

The open hours on Monday afternoons and evenings have been sufficiently appreciated to warrant continuation, the library now being open 21 hours weekly. A table of comparative data has been prepared by the Public Library Commission which may be of interest to our readers and give an opportunity to see how our library compares with others of similar rating. Comparison of circulation must always take into account the factors of hours the library is open and the library income, since these two points have the greatest bearing on circulation figures.

(See Table.)

The librarian's report shows that this library had cooperated with the Public Library Commission in the loan of books for a three months' period. She stated that in spite of the omission this year of the three traveling libraries sent by the Commission which increased the circulation credit for the local library, and other factors, the circulation this year shows an increase of 2,096. Adult fiction loaned, 13,687; adult non-fiction, 2,350; junior fiction, 3,712; junior non-fiction, 1,241; total, 20,990. Received for fines \$35.80. New books added during the year, 174.

The reading room, with its excellent supply of good magazines, made possible by the Minnie Maria Day-Jackman Fund, is, as formerly, one of the most appreciated divisions of the library and brings to our readers each month copies of such magazines as Atlantic, American, American Boy, American Girl, American Forest, American Home, Among the Deep Sea Fishers, Better Homes & Gardens, Country Gentleman, Current History, Child Life, Clubwoman, Christian Century, Cosmopolitan, Dumb Animals, Delineator, D. A. R., Embroideress, Forum, Field & Stream, Flower Grower, Good Housekeeping, Garden Digest, Harpers, Hunting & Fishing, Junior Home, Ladies' Home Journal, Literary Digest, National Geographic, Nature, Home Arts Needlecraft, New Outlook, Parent, Popular Science, Popular Mechanics, Readers' Digest, Review of Reviews, Scribners, St. Nicholas, School Art, Scientific American, Tiny Tower, Woman's Home Companion, Woman's World, Radio and Modern Mechanics and Inventions.

As trustee in charge of gifts, Miss Pray reports:

During the year 1935-36, the Minot-Sleeper Library has been the recipient of four interesting gifts.

The first of these, from Stephen Hill, is a picture of Washington the age of which is not known. However a mat showing brilliantly-colored draped flags and the frame of old gift suggests that it may have belonged to someone's great-grandparents.

Mr. and Mrs. Clarence Jewell have added to the Bristol picture collection in a copy of the topographical sketch of the town made in 1884. This has a black walnut frame, probably of the same date as the picture.

Through the generosity of the late Philip G. Bartlett, the library has received two antiques from the personal effects of Colonel Peter Sleeper, one of Bristol's earliest residents. These are a pair of silver shoe buckles and a grandfather's clock, all in an excellent

state of preservation. The clock stands behind the librarian's desk, and adds materially to the appearance of the room as well as filling a long-felt want in the way of a time piece.

It is hoped that other residents or friends of Bristol may add to the Minot-Sleeper collection of antiques from time to time, and it is suggested that all trustees having opportunity will encourage this work whenever possible.

Respectfully submitted,

100 pupils have defective teeth

26 pupils have large or diseased tonsils

3 pupils show defective breathing

3 pupils probably have adenoids

4 pupils have defective speech

One-half pint of milk was provided from the Federal funds for the underprivileged and underweight children also during the winter months.

Eighteen children were immunized against diphtheria, at a toxoid clinic conducted by the State Department of Health nurse, Mrs. Lois Barton, at which the school nurse assisted.

One child will be fitted with glasses and four have tonsilectomies done at Laconia Hospital later in June.

Frequent class room inspections have been made to control pediculosis and skin disease.

The children have been weighed and measured twice in all the lower grades. This was done once in the upper grades.

Ninety-five visits have been made to schools.

Home visits have been made in twenty-three homes including forty children. Several calls have been made in a few homes.

I wish to express my appreciation to the members of the school board, Mr. Freese, state relief workers and the local Red Cross for their splendid assistance in making possible so much corrective work.

Respectfully submitted,

EVA M. NELSON, R. N.
